Subject: Comments presented at AIDEA board meeting.. and a request for you to host an Energy Summit

Date: Sat 4-26-08
From: Paul D. Kendall
TO: Mr. S. Haagenson Energy Director of Alaska

Dear SIr,

Please consider this a formal and of public record request by me to you;

to appoint a body of one or more to hold a preliminary and kind of prepatory, shakeout, pilot, trial or dry run public Energy Summit Forum- Residentail Energy Needs and visions. (Please see my attachment pages for some rough details) Sir, i really think we (alaskans) can do this; Lets give it a shot..It cant hurt..!
AND I DONT NEED TO BE INVOLVED IN THIS IN ANY WAY... AT ALL !!
I JUST WANT TO SEE IT HAPPEN; AND HELP IF I CAN....

you have to let the Marston Theater people at the Library know something by tue or wed of next week..so they can release those days mentioned...

((((and please dont forget my request for you to film your many community visits so we can learn from them as well by **playing them on our community channels... not just Juneaus' G ot G privatge network...)))**

I had hoped to get to talk to you at the AIDEA meeting (23) but i missed you...
Please find the attached comments i think i gave to the board members...
The one with 2 pages on BP and General electric looking to construct up to or around 15 Hydrogen generation (500 MW) power stations and bp forming with Rio Tinto a new corporation "Hydrogen Energy" based in London? is not attached..

And finaly, in conclusion, I realize some of my commentaries are considered harsh, foolish, stupid, incendiary, inciteful, and called/ considered a lot of other things by some .... In my world freedom of speech is a priority and a fundamental right.... i look for the intentions and **reasons behind the words used...**
my intentions are well ment...!

Thank You, Paul D. Kendall

Mr. Haagenson, a very, very strong case can be made to have this dry run Energy Summit at the Marston at this time... many reasons can be brought into play here....This could be a really fun, learning, empowering and engaging event for your team and staff, the people, some public officials, and the State of Alaska...
I will donate $20.oo toward finger foods for the public; like... say a slice of pizza and a little cup of pepsi for 99 cents.. (Pizza form Pizza Hut is my preference! but; on second thought it should be an Alaskan company who has first shot at the pizza?? right...)

Thank you! I look forward to reading this. Also Kate- if you get a chance before the Nurses Luncheon next week- there is an ode to nurses that I've read before... something about what it means to be a nurse and how important they are to the I'll and lonely. I can't remeber where I saw it (shoot, it could have been on a greet card even!), but if you come across such a thing we could incorporate it into the proclamation reading that day. Thank you.

RE: Kevin Fitzgerald – Judicial Council

Dear Members of the ABA,

I would like to comment on Kevin Fitzgerald's run for a seat on the Alaska Judicial Council.

I am involved in proceedings against attorney Brent Cole & during these proceedings Mr. Cole called Mr. Fitzgerald as a collaborating witness. Mr. Fitzgerald committed irrefutable perjury to collaborate Mr. Cole's irrefutable perjury – resulting in felony conspiracy.

I am seeking justice in this mater and I think it would reflect poorly on the Alaska Bar Association to elect such a person to sit on the Alaska Judicial Council – which selects the judges for this great state.

Respectfully,

Remembered another comment from today as I heard a lot of ideas from residents about how to provide relief for high energy costs (I am not particularly endorsing any of these...just passing along citizen comments.)

Here's what I heard:

1. Why can't the state do something with the Healy clean coal plant to provide cheaper power (Steve and Tom know those issues better than I)

2. Why can't the state suspend the oil tax for a time on in-state producer refined gasoline in exchange for producer agreeing to drop price of gasoline.

3. Raise local property tax exemption to 100000 instead of just 20K.

4. State should fund Susitna Hydro

While these were observations from others, one point was driven home for me,.. Privileged or Privileged or Personal Material Redacted

Subject: Fairbanks energy costs

Remembered another comment from today as I heard a lot of ideas from residents about how to provide relief for high energy costs (I am not particularly endorsing any of these...just passing along citizen comments.)

Here's what I heard:

1. Why can't the state do something with the Healy clean coal plant to provide cheaper power (Steve and Tom know those issues better than I)

2. Why can't the state suspend the oil tax for a time on in-state producer refined gasoline in exchange for producer agreeing to drop price of gasoline.

3. Raise local property tax exemption to 100000 instead of just 20K.

4. State should fund Susitna Hydro

While these were observations from others, one point was driven home for me,. Privileged or P

Is Pat G engaged in this discussion where tax revenues are being talked about? And, sure, feel free to pass to Tom, Steve...
